

# Florida Translational Cell Biology Symposium

Friday, September 22, 2017

9:00 am–7:00 pm

*Registration & Breakfast @ 8:00 am*

Supported by  
The American Society  
for Cell Biology

Abstract Submission Deadline:

*Talk:* September 1, 2017

*Poster:* September 8, 2017

Registration Deadline:

September 22, 2017

University of Florida Cancer &  
Genetics Research Complex

2033 Mowry Road, Gainesville, FL

**Keynote Speaker: Ryohei Yasuda, PhD**

*Max Planck Florida Institute for Neuroscience*

This one-day event is hosted by graduate students in the University of Florida Graduate Program in Biomedical Sciences. Hosted on the campus of the University of Florida, which is home to the region's most comprehensive academic health center, the symposium will be a perfect environment for graduate students, postdocs, and faculty from around the state to join each other and discuss translational aspects of many topics within the broader field of cell biology. Researchers at all career stages will have the opportunity to present their work in either poster or lecture format, network with scientists from other institutes during a provided lunch and evening reception, and attend discussion groups on issues related to career development.
